Magic Tilt is now offering its Pinnacle Series designed for large fishing and sport boats. Featuring an all welded design, each Pinnacle is designed to fit its particular hull perfectly. No set-ups, no hassles, and best of all, ease of launching and loading.

At Magic Tilt, our engineers utilize digital electronic designs to assure your hulls are guided easily into place over the trailer when loading. Our certified welding technicians have access to hundreds of fixtures reducing errors in manufacturing. Weight is distributed proportionally for a smooth ride over the road.
